2. Wage and Salary Earners in Civilian Employment in N.S.W. : Government and Private

(Excluding Rural Workers, Females in Private Domestic Service, and Defence Forces)

Notes:—

1. The estimates of employment given in Tables 2 and 3 are derived from three main sources :—

- (a) monthly employment in factories, as recorded in the annual factory censuses;
- (b) monthly returns from governmental authorities; and
- (c) monthly returns supplied by employers for purposes of Commonwealth pay-roll taxation.

These are supplemented by some other direct records of monthly employment (e.g. hospitals) and by estimates of the number of employees outside the scope of the main sources.

The numbers of factory employees shown for months subsequent to June, 1959 are estimates which are subject to revision in the light of the results of the factory census for 1959-60.

2. Workers in rural industry, females in private domestic service, members of the full-time defence forces at home or abroad, and National Service Trainees in camp are excluded.

3. The estimates are designed to measure monthly trends in employment in the defined field. They are compiled on an establishment or enterprise basis, and therefore do not cover exactly the same area of industry as the industry tabulations compiled on the occasion of a population census from the schedules provided by individuals.

4. Employment in Larger Private Factories, New South Wales

In order to provide a prompt indication of the trend of employment in private factories, a survey of employment in 736 of the larger private factories in New South Wales is made at the end of each month, by joint arrangement between the Secretary of the Department of Labour and National Service and the Commonwealth Statistician. Approximately half of total factory employment is covered by the collection, the results of which are usually available one month earlier than particulars of total factory employment shown in Table 3.

BUILDING ACTIVITY IN NEW SOUTH WALES

Note 1. "Value" represents the estimated cost of the building when completed (exclusive of the land).

2. Building is classified as "government" or "private" according to ownership.

3. The value of building approved is, for private building, the value of permits issued by local government authorities to build in that part of the State (covering all municipalities and the larger residential areas within shires) subject to building control by local authorities; and for government building, the value of contracts let or work commenced and day labour projects authorised by governmental authorities.

4. Some building in rural areas is excluded.

51. Index of Prices of Shares on Sydney Stock Exchange

This index relates to ordinary shares of the principal companies (excluding banking companies) listed on the Sydney Stock Exchange whose business in New South Wales is extensive. The prices of individual shares are unweighted, and each group average is the mean of the average monthly prices per £1 of paid-up capital. The aggregate index is the average of all the shares included in the groups with the addition of 34 miscellaneous shares. There is no base period as the index represents the ratio per cent. of the average prices of ordinary shares to their par values, adjustment being made for changes in capital structure.

57. Wholesale Price (Basic Materials and Foodstuffs) Index

Commodities are priced in their primary or basic form wherever possible. Prices are drawn mainly from Melbourne sources. Apart from locally produced building materials, and one or two minor commodities, the price movements may be taken as representative of variations in wholesale prices of basic materials in most Australian markets.

* For State Awards, the amounts shown to February, 1959 represent the basic wage together with so much of any margin and any further amount necessary to make the minimum wage payable equivalent to 75 per cent. of the basic wage for males. Following the increase in the basic wage to the 75 per cent. equivalent, the amount shown from February, 1959 is the basic wage exclusive of any margin. This change was applied in State Awards from different dates, beginning in March, 1959.

† Quarterly adjustments for movements in retail prices were suspended in September, 1953, in both Commonwealth and State Awards. They were restored in State Awards in November, 1955.

61. Weighted Average Minimum Weekly Wage Rates, N.S.W.

Notes:—

1. The indexes of nominal wage rates, published in previous issues, have been replaced by new indexes of minimum wage rates.

2. The new indexes embrace a more representative range of occupations and are based on the occupation and industry structures in 1954. The wage rates used in the new indexes are the rates payable for a full week's work (excluding overtime), as prescribed in the relevant industrial awards, determinations, and agreements. The rural industries are excluded from the indexes.

3. The money amounts shown should not be regarded as actual current averages, but as an index of changes expressed in money terms.

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS
NEW SOUTH WALES OFFICE

PUBLICATIONS

The publications listed below are obtainable, except where noted otherwise, from the Deputy Commonwealth Statistician, 428 George Street, Sydney. In addition to these publications, the Deputy Commonwealth Statistician issues a number of mimeographed publications, particulars of which may be obtained on application.

In the Official Year Book of New South Wales, the statistics of the State are explained and analysed and information is given about their legislative and administrative background. The Year Book is prepared in Parts (which may bear different numbers from year to year), each of which is issued separately as printed; the Volume is issued when all the Parts have appeared.
